

Smooth Finish presents a wide format lamination workshop:

FINISHING UNDER CONTROL WRAP SESSION & MORE...

Spend a day with a leading industry consultant, Don Bahr, and discover how your business can get "finishing under control."

"It's not just labor and time savings either. We can now offer a lot of new services like lamination, masking on die-cut, pre-coated adhesive boards and more vehicle wraps. No more squeegees."

-Bryon B, Howard's Grove, WI

Featuring demonstration of sign shop applications utilizing pressure sensitive materials:

Vinyl Wrap Laminating
Decaling
Mounting

Other applications we will discuss include:

Pre-Mask/Transfer Tape
Coating substrate with colored vinyl
Floor & Window Graphics

Special Offer from SEAL for Attendees:
\$250 Rebate on \$500 supply purchase

"Finishing is a crucial part of the production cycle, so I see your training class as a good investment (not easy to find these days)! Without your training, I can see now that there would be quite a learning curve, many phone calls, and a lot of frustration!"

-Daniel D, Acworth, GA
